

Eco-Tec introduces Chinese language website

September 2013, Pickering, Ontario – Eco-Tec Inc., global supplier of industrial water treatment and chemical recovery systems, officially launched its website in Chinese to better serve its client base throughout Asia and other sectors worldwide.

Chinese-speaking prospects can now visit www.eco-tec.com/zh-hans to learn more about Eco-Tec's advanced ion exchange (Recoflo[®]) and micro media filtration (Spectrum[™]) products, which significantly improve operators' process performance, economy, and reliability.

"We're now exporting to more than 60 countries and boosting our efforts in China and other key parts of Asia," said Dr. Phillip (Rocky) Simmons, Eco-Tec President & CEO. "Bringing the benefits of our technology and services online to the Chinese-speaking market is an important step."

Based on the format of its English website, Eco-Tec's Chinese site features smooth, simple navigation; an array of photos and graphics; and many useful technical articles and white papers.

Switching between languages throughout the website is easily done by clicking on the country flags found at the top and bottom of web pages.

To learn more, visit (in Chinese) www.eco-tec.com/zh-hans/ or (in English) www.eco-tec.com.

Eco-Tec's new Chinese website – serving growing markets throughout Asia – is now available.

About Eco-Tec - www.eco-tec.com

Backed by over 40 years of manufacturing expertise, Eco-Tec designs, develops, and builds equipment for industrial water treatment and purification of chemicals and gases. Our systems incorporate advanced, proprietary designs that provide clients with improved performance, economy, and reliability in their operations, while facilitating environmental responsibility. In business since 1970, Eco-Tec has supplied over 2,000 systems to more than 60 countries.
